RESPONSE

Mail Stop Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In response to the action mailed November 17, 2003, applicant respectfully elects with traverse Group I comprising claims 1-15, drawn to method of securing a panel with adhesive bonding material, with traverse.

With regard to the request for species election, applicant makes the following election with traverse:

Species I, where adhesive bonding is moisture cured; and

Species E, where the heating is electromagnetic radiation.

The basis for applicant's traversal is the Examiner has not shown how examining all claims would be unduly burdensome. Further, applicant does not necessarily wish to be bound by the Examiner's logic imposing the restriction requirement and request for election of species.

Serial No. 10/057,525

Group Art Unit: 1733

Favorable consideration of all claims pending herein is respectfully requested.

Respectfully submitted,

MERCHANT & GOULD
